Underground Workshop Notice (PLEASE NOTE: NEW DATE!)

March 13, 2002

10 am – 4 pm

Sempra Energy Headquarters

101 Ash Street, Auditorium #3

San Diego

In compliance with the Commission's Decision (D.) 01-12-009 issued December 11, 2001 in the Underground Electric and Communication Facilities Rulemaking Proceeding R.00-01-005, the California Public Utilities Commission's Energy Division posts and serves electronically this notice of a public workshop it will sponsor to facilitate input on the design of a standardized data reporting mechanism. The workshop will be hosted by SDG&E as shown above and allow participants to discuss and make recommendations on elements to be incorporated in the data collection and reporting system. The goal of the data tracking and standardized reporting is to allow the utilities, the Commission, and interested parties, to track the safety, service reliability, and lifetime cost for both overhead and underground projects and make valid and reliable comparisons between systems. A data tabulation template drafted by the respondent electric utilities is attached to this notice. The template will be the basis of discussion at the workshop.

Within ten days after the workshop, we invite parties to submit and serve a position statement, discussing why their proposed data collection and reporting system are important to future public policy on undergrounding.

Teleconference Information: Conference call capabilities will be provided by calling 1-800-966-6338; reference Margaret Moore, and followed by the pass code # 02060148. The meeting is wheelchair accessible. Participants attending the workshop via conference call are asked to put their phones on mute when they are not addressing the workshop participants in order to reduce background noise.

If you will not attend then please provide your written or electronic comments before the close of the workshop. Send them electronically to chris@stiehlworks.com and dkl@cpuc.ca.gov or mail them to both:

2/4/02	A00-11-038	Southern California Edison Company, for authority to institute a rate stabilization plan with a rate increase and end of rate freeze tariffs.
	A00-11-056	Pacific Gas and Electric Company, for emergency application to adopt a rate stabilization plan.
	A00-10-028	The Utility Reform Network, for modification of Resolution E-3527.

Summary: On January 30, 2002, Robert Finkelshtein, attorney for The Utility Reform Network, attended an all-party meeting with Cmmr. Brown in San Francisco. Also present were David Gamson, advisor to Cmmr. Brown, Bruce Foster for Southern California Edison Company (Edison), Mark Huffman and Chris Warner for Pacific Gas and Electric Company, Bill Reed for San Diego Gas and Electric Company (SDG&E), Marc Joseph for the California Coalition of Utility Employees, James Weil for Aglet Consumer Alliance, and Chris Danforth and Bill Gibson for ORA. Finkelstein noted that the proposed decision (PD) makes clear that it would have the Commission adopt interim ratemaking to be in place only until the next general rate case for each utility. Finkelstein stated that the PROACT balance includes amounts for uneconomic costs not yet recovered as of August 2001, and will certainly be recovered in rates after December 31, 2001. Finkelstein stated that it is not fair to let Edison have it both ways, eliminating the portion of Section 367(a) that served to limit ratepayers' exposure to uneconomic cost recovery, but strictly enforcing the subpart thereof to continue ICIP payments. Finkelstein also pointed out that prices in excess of the known costs of production should be prevented and that failing to take this opportunity to reduce the cost to Edison and SDG&E's customers for SONGS-produced electricity would be inconsistent with all of the rhetoric to seek the return of the overpayments consumers made to unregulated energy marketers. Finkelstein also called for setting the authorized return on equity for remaining generation investment at a level substantially lower than the rate of return for distribution investment.

Summary: On January 31, 2002, Robert Finkelshtein, attorney for The Utility Reform Network, attended an all-party meeting with Cmmrs. Duque and Wood in San Francisco. Also present were Lynn McGhee, advisor to Cmmr. Duque, Bruce Foster for Southern California Edison Company (Edison), Mark Huffman and Chris Warner for Pacific Gas and Electric Company, Bill Reed for San Diego Gas and Electric Company (SDG&E), Marc Joseph for the California Coalition of Utility Employees, James Weil for Aglet Consumer Alliance, Theresa Mueller for the City and County of San Francisco, and Chris Danforth and Bill Gibson for the Office of Ratepayer Advocates. Finkelstein pointed out that the 'postage stamp' allocation is just as 'cost-based' as the 'locational pricing' preferred to varying degrees by Edison and SDG&E, and urged the Commission to reject the invitation to treat only the latter as 'cost-based.' Finkelstein urged the Commission to recognize that the circumstances here are remarkably like the circumstances the Commission faced when it had to allocate the three-cent surcharge among customer classes, and to remember that in D01-05-064 it had adopted an equal cents per unit allocation because it was allocating the costs associated with market dysfunction. Finkelstein argued that locational pricing would serve to penalize or reward utilities for results over which they had no control.

Summary: On January 31, 2002, Robert Finkelshtein, attorney for The Utility Reform Network, attended an all-party meeting with Cmmr. Wood in San Francisco. Also present were Linda Serizawa and Steven Weissman, advisors to Cmmr. Wood, Bruce Foster for Southern California Edison Company (Edison), Mark Huffman and Chris Warner for Pacific Gas and Electric Company, Bill Reed for San Diego Gas and Electric Company (SDG&E), Marc Joseph for the California Coalition of Utility Employees, James Weil for Aglet Consumer Alliance, and Chris Danforth and Bill Gibson for ORA. Finkelstein noted that the proposed decision (PD) makes clear that it would have the Commission adopt interim ratemaking to be in place only until the next general rate case for each utility. Finkelstein stated that the PROACT balance includes amounts for uneconomic costs not yet recovered as of August 2001, and will certainly be recovered in rates after December 31, 2001. Finkelstein stated that it is not fair to let Edison have it both ways, eliminating the portion of Section 367(a) that served to limit ratepayers' exposure to uneconomic cost recovery, but strictly enforcing the subpart thereof to continue ICIP payments. Finkelstein also pointed out that prices in excess of the known costs of production should be prevented and that failing to take this opportunity to reduce the cost to Edison and SDG&E's customers for SONGS-produced electricity would be inconsistent with all of the rhetoric to seek the return of the overpayments consumers made to unregulated energy marketers. Finkelstein also called for setting the authorized return on equity for remaining generation investment at a level substantially lower than the rate of return for distribution investment.

Summary: On January 31, 2002, Bill Stock, Chief of Regulatory Relations of Pacific Gas and Electric Company (PG&E), participated in an all-party meeting with Cmmr. Duque in San Francisco. Also present were Laura Krannawitter, advisor to Cmmr. Duque, Les Guliasi, Director of Regulatory Relations, and Mark Huffman and Christopher Warner, Attorneys, for PG&E, as well as other parties listed on the sign-in sheet attached to the notice. Huffman noted that overall the allocation methodology laid out in the proposed decision (PD) regarding the California Department of Water Resources' (CDWR) revenue requirement is appropriate. Warner noted errors in the CDWR revenue requirement. Warner stated that responsibility for the CDWR-related franchise fees should be deferred until the Legislature clarifies how this issue should be resolved. Referring to the draft Servicing Agreement between PG&E and CDWR, Warner noted that neither the disposition of the agreement nor PG&E's adherence to it should be determined until the bankruptcy court rules on the agreement. Finally, Huffman stated that San Diego Gas & Electric Company's financial position is different from Southern California Edison and PG&E

Summary: LATE FILED. On January 30, 2002, Bill Stock, Chief of Regulatory Relations of Pacific Gas and Electric Company (PG&E), participated in an all-party meeting with Cmmr. Wood in San Francisco. Also present were Les Guliasi, Director of Regulatory Relations, and Mark Huffman and Christopher Warner, Attorneys, for PG&E, as well as other parties listed on the sign-in sheet attached to the notice. Huffman stated that the proposed decision (PD) should make it clear that the Commission is not intending a general re-investigation of tax issues. Huffman argued that the Commission should adopt forecasted costs. Huffman suggested that the Commission should defer significant action on procurement until the conclusion of the Procurement Order Instituting Investigation. Huffman pointed out that while PG&E agrees with the PD's conclusion that it would be not possible to conduct a rational review of plant Operation and Maintenance (O&M) activities, this conclusion should not be used to automatically disallow some of PG&E's incurred O&M costs. Huffman

indicated errors in a number of the values used in the PD, as well as omissions of significant issues. Huffman asserted that bringing PG&E back to creditworthiness should be a key objective of the Commission. Warner referred to incentive rulemaking for the Diablo Canyon Power Plant and outlined how it has resulted in the plant operating at a very high capacity factor. Referring to PG&E's rate of return issue, Huffman noted that it should be fully litigated in the utilities' next cost of capital proceedings.
